

MODEL 10-2014 ANTI-SIPHON DEVICE FIELD INSTALLED

SK2582

1. Verify that all components are present and undamaged.
2. Install as shown above. Fit and glue per applicable codes.
3. Verify that the pump "off" level is below the anti-siphon valve. Adjust the float level if necessary (see above).

NOTE: Failure to ensure that the pump "off" level is below the anti-siphon valve will negate the purpose of this device.
