

# Air Conditioner or Heat Pump Sizing Chart

Preparing your sizing chart:

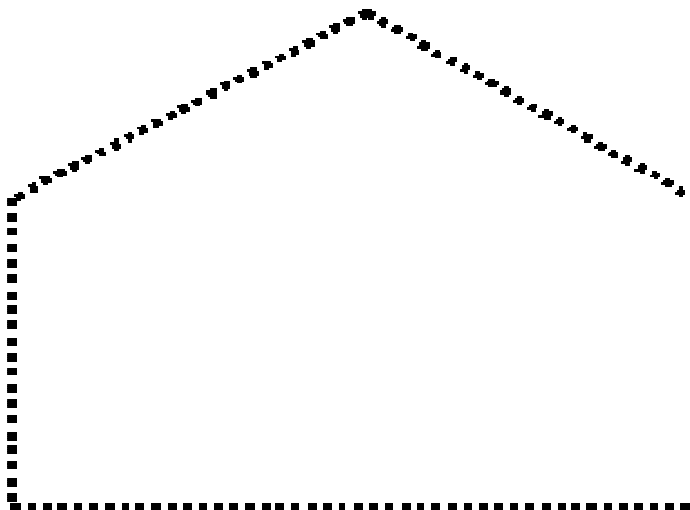

1. Print out this page.
2. Leaving the page intact, carefully cut out the holes on the dotted lines.
3. For operating instructions see bottom of page.

**1 1/2 to 2 ton**

**2 1/2 to 3 1/2 ton**

**4 to 5 ton**

## **Sizing Chart Operating Instructions**

1. Stand on the curb.\*
2. Hold the sizing chart approximately one foot from your face.
3. Look at the house through each hole.
4. If the house fits in a hole, that's the size unit to use.

\*If the curb is not available - ask the homeowner where a curb would be if there was one.
